**Subject:** Re: Deputy Administrator ECOS Participation Next Week

Hi, Tony. Attached are 3 files. Non-Responsive The second is the press release on Dimock, PA from late last month, and the last is the Q and A document regarding Dimock, PA. I believe the Deputy Administrator is pretty well briefed up on many of Region III's issues, so there are some we simply pointed out, but did not write up on. For example, we note that Secretary Krancer could raise natural gas drilling issues, but given the amount and level of info HQ already has on this national/regional issue, we did not provide a specific write up, just a note that it could come up. not responsive

not responsive

If you need anything more on any of this, just let me know.

Thanks,  
Cathy

**Subject:** Deputy Administrator ECOS Participation Next Week

Attached is updated registration for next week's ECOS meeting.... please take a look for your respective state's leadership ,and let me know if you think any of those folks may try to **corner the Deputy Administrator on anything super hot in their state?** The DA will be at the meeting Sunday through Tuesday, attending one or more sessions, and giving luncheon keynote on Tues....so, I have to ask. Understand most of you will not have anything to report on this.

[REDACTED] - RAJ (R3) (C) (S) (E) (P) (A) (U) (S)  
Final Meeting Agenda attached too...
